Brief Industrial Profile of Deoria District

1. General Characteristics of the District:

Deoria district came into existence on 16 March 1946 after taking out some portion of old district Gorakhpur. The name Deoria is probably derived from Devranya or Devpuria. The term ' DEORIA' generally means a place where there are temples. The name ' DEORIA' originated by a fossil (broken) Shiva Temple by the side of 'Kurna River' in its north side.

This is situated in the bank of Kurna River. Ghaghra River also flows from its southern parts. In ancient history in Ramayan Era it was under the reign of Kaushal Naresh. Lord Ram gave the Kingdom of Kushwati to his Eldest son Kush. This kingdom is now-a-days part of Kushinagar District which was formed in 1994.

1.1 Location & Geographical Area.

This district is located between 26° & 28° north latitude and 83° & 85° east longitude. Deoria District is surrounded by district Kushinagar in North, district Gopalganj & Siwan (Bihar state) in East, district Mau & district Ballia in south and district Gorakhpur in West. Deoria district headquarter is situated at 53 km. milestone from Gorakhpur by road towards east. The geographical area of the district is measured as 2540 Sq.Km. District headquarter is situated at 50 km from Gorakhpur on Gorakhpur-Siwan broad gauge railway line towards Siwan. Ghaghara, Rapti & Chhoti Gandak are the main rivers in this district. Besides these, gorra, bathua, kurna, majhne, nakta are small rivers/nala which originates from above mentioned rivers. Climate of the district is 'SAMSITOSN'. May & June are hot and December & January months of the year are cold. Soil of different types is found in the district. Domat, Bhat, Matiyar & Balui Domat is found commonly. Productive & densely populated this district of Uttar Pradesh is situated at the north-east end of the state. Currently, Deoria district has five tehsils namely Deoria, Sadar, Salempur, Rudrapur, Berhaj & Bhatparrani.

1.2 Topography

The topography of Deoria is comprised of alluvial soil, sand, gravels. The mountain, plateau and other geographical reliefs are missing as an entire district belongs to Gangatic North Eastern Plain Zone. The general slope of relief is west to east and stretch is about 130 KM. The major river is Saryu (Ghaghara). Rainfall is quite high at about 1,210 mm, the climate is moist sub-humid to dry sub-humid. 73% of the land area is cultivated and about half of the cultivated land is irrigated. Tube wells are the major source of irrigation.

1.3 Availability of Minerals.

Deoria district has almost nil minerals availability. There are only soil, sand, building materials which are extracted from river Saryu (Ghaghara)

1.4 FOREST

In the Deoria district the forest area is 261 Hectares. In 2010-11, cultivable area was 259.8 Hectares. Forest department under Deoria division is working with one sub-division, 5 ranges 16 section and with support of 32 beats. Eucalyptus, Sheesham, Teak, Khair, Mulberry, Chir, Arjun Miscellaneous trees are found in this region.

1.5 Administrative set up.

Deoria is the headquarters of Deoria District, under the Gorakhpur Division. According to the 2011 census Deoria district has a population of 3,098,637, roughly equal to the nation of Mongolia or the US state of Iowa. This gives it a ranking of 114th in India (out of a total of 640). The district has a population density of 1,220 inhabitants per square kilometre (3,200 /sq mi). Its population growth rate over the decade 2001-2011 was 14.23 %. Deoria has a sex ratio of 1013 females for every 1000 males and a literacy rate of 73.53%

As a basic administration unit the district, has assumed a greater development and regulatory role consequent to emphasis on decentralized planning. It is divided into 5 Tehsils (Revenue Sub- Divisions) presided over by a Sub Divisional Magistrate. Tehsils are further subdivided into Sixteen Development Blocks, Blocks into 176 Nyay Panchayat and these Nyay Panchayats into 1017 Gram Sabhas which consists of 2162 Revenue villages.
